

Applicant Bruce Forsberg

Appl. No. 10/642,817

Filed 8/19/2003

Title Candle wick maintenance instrument

Date: March 15 2005

Honorable Commissioner for patents

Washington DC 20231

AMENDMENT

Sir,

In response to the Office Action Summary notification from Stephen Choi for the selection of applicable claims, I was somewhat confused as a result of the Notice of Publication of Application dated 02/24/2005. A copy has been attached. Does this indicate that a response to this request is no longer required since the patent has been published? If a response is required, please let me know so that a selection can be made and if applicable, a new patent submitted for the other portion of the claims not included in the original.

If any other information is required, please do not hesitate to contact me via e-mail at bforsberg@mchsi.com or the address on file.

Respectfully submitted

A handwritten signature in black ink, appearing to read "Bruce Forsberg".

Bruce Forsberg
